The Little Ghost of Kind Words

A special Halloween costume

Once there was a little ghost
who had a big problem.
Halloween was coming and
he didn't know how to dress up!

"Oh no! It's the same story every year!
Everyone has wonderful costumes
and I'm always completely white
from head to toe!" he said sadly.

First he tried a witch hat,
but it kept sliding down
over his eyes.

Then he tried a vampire costume,
but his fake teeth kept falling off
again and again.

He even tried to turn into a pumpkin,
but he was so round that he couldn't
even fit through the doors!

Finally, he sat down sadly
in front of the mirror.
"I wish I had a really special
costume!" he sighed.

Just then, a little fairy arrived.
"Do you know what the most beautiful costume
in the world is?" she asked.

"One full of glitter?" the ghost asked.

"No! It's the one made of colours and kind words!"
the fairy replied.

"Kind words? But you can't wear words!"

"Not exactly... but they can make someone smile
and make even the simplest costume special!"

The little ghost thought for a moment, then smiled.
"I've got it! This year I'll wear a costume full of colours
and bring a kind word to a friend!"

And from that day on, every Halloween,
the little ghosts are ready to turn into little messengers
of kindness.

Now it's your turn!

Decorate your little ghost with the most creative costume you can imagine.
Then think of something nice about your classmate and write it under the drawing.
Because sometimes, a small kind word is enough to give a big smile!

For Halloween, I dress in colours...
and share kind words!
